How was Nebraska born?

Nebraska was founded in 2024, when two friends with experience in the tourism industry identified a clear need: to offer authentic and personalized experiences, far from mass tours and traditional travel models.

Driven by this vision, they created a tour operator focused on designing meaningful, high-quality journeys, fully tailored to each individual. That's how Nebraska was born—with the goal of showcasing the best of Chile in a safe, peaceful, and personalized way, carefully attending to every detail to ensure each experience is truly unforgettable.

NEBRASKA'S MISSION

To create memorable and authentic experiences in Chile through personalized tours for small groups, connecting travelers with the country's culture, nature, and identity. We offer warm, friendly service, professional photography, and a young, innovative approach—creating unforgettable moments from the very first instant.

We aim to build a tailor-made style of tourism, far from the mass-market model, where every visitor feels part of our community and lives experiences like no other.

“

We want to create unique experiences in Chile, filled with soul and personality.

NEBRASKA'S VISION

To become the leading agency for personalized travel experiences in Chile, recognized for our warmth, creativity, professionalism, and ability to turn every trip into a story worth telling.

We aspire to expand into new destinations and formats, building a loyal community of travelers, collaborators, and influencers who see our brand as more than just an agency—a trustworthy travel family, passionate about what we do.

“

We strive to turn every journey into a story worth sharing.

Felipe Ignacio Catón Peña Co-founder & Operations Manager

From a young age, Felipe was part of the scout movement, where his love for nature, leadership, and group organization was born. Later, he studied Expedition Management and Ecotourism Engineering, a background that allowed him to deeply understand the tourism industry and explore Chile from a more profound perspective.

During this process, he participated in multiple expeditions across the country, exploring remote, authentic, and often unexplored places. This combination of personal experiences, academic training, and fieldwork gave him a comprehensive vision of tourism, essential for designing high-level personalized trips.
